

## **Horne Construction Inc.**

### **History and Experience**

Horne Construction Inc., through skilled craftsmen and top management, has grown from a small individual proprietorship first licensed in 1950, to a diversified firm with vast experience in general contracting presently doing millions of dollars' worth of construction each year.

We are proud of the shopping centers, schools, bridges, apartments, industrial parks, motels, public and private housing, office buildings, government and defense projects, and tenant improvements we have completed over the years.

We invite you to review the following pages to become familiar with our personnel who make our company successful.

### **Corporate Structure and Management**

Horne Construction Inc. is a family held corporation incorporated in the State of Utah. The Corporation is licensed to do business in Utah as well as 35 other states ranging from the East Coast to the West Coast. Most of our work is completed for long term, loyal clients who have made the decision that working with us saves time and money. The balance of our work comes from competitively bid projects.

Horne Construction has extensive experience in working with Design-Build and fast track construction. Projects completed with the combination of both of these methods include Layton Hills Mall, Hillside Plaza Shopping Center, Redwood Village Shopping Center, and numerous other projects.

### **Work Philosophy**

At Horne Construction we strive to provide every project owner with 110% satisfaction in the work we have completed. We recognize that every project has budget constraints and work with the owner to provide a project to be proud of within the constraints of the budget. Scheduling is an area of importance to the owner and we complete the work in accordance with a predetermined schedule that is geared to the owner's requirements. Quality is of the utmost importance and our field personnel have been trained to strive for a "Zero Punchlist" project. Our goal is to provide the most desirable construction experience possible and develop long term client relationships that are mutually beneficial.
